Meat-Bone Separators

SCANDEBONE 100 & SCANDEBONE 150

- PUMP FEED SYSTEM

scansteel foodtech® scanDebone 100 & scanDebone 150 are high-quality mechanical deboning machines for meat-bone separation for the poultry and processing industries. scanDebone 100 & scanDebone 150 are designed in such a way that the final product temperature increase has been minimized throughout the entire operation.

The scansteel foodtech® scanDebone series produces an adjustable, very high yield and at the same time it produces a final product with low calcium content in the final poultry and fish raw materials, which supports a high product quality.

Superpump SP 250 shown below feeding a scanDebone 150.

scanDebone 150 shown without slit filter.

scanDebone mounted with slit filters.

Slit filter seen from inside.
